Sure. I think Terrance is pretty much up to date on the issues, but give me a call anytime.
The info I briefed Rod on was newly emerging and is increasing drive on the GPEB side for a coordinated approach to making credit available asap. So new for everyone and I'll run through that at the meeting. Rod wanted us to get ahead of the issue so we don't wait for a model to emerge, he would like us to have as much influence on the model as possible and to ensure we have a good idea on what we are prepared to and not prepared to do in regard to credit.

That would be great, Rod did give me the heads up that he spoke to Rob and wanted me to circle back with him.
Thanks

Hi Rob,
If you haven't already done so I think you should run Terrance through the concerns in advance of the meeting since that is still a couple of weeks off.

Thanks,
Peter

Subject: AML - Granting of Credit
Hi guys
Briefed Rod today on large cash buy-ins and chips being purchased without play. There is some mounting concern at Min of Finance. Credit is likely going to be pursued in the very near term as part of the solution. As a bit of a priority Rod would like us to get together to advance our thinking and possibly develop draft model that would work for us.

I will ask Andrea to set up a one hour meeting for an initial discussion. Please feel free to bring any
others along whom you think need to be involved at this stage.

Rob
