Peter German

Dear Mr. German,

As our contract with you comes to its conclusion, I would like to take this opportunity to thank you for your contributions and guidance as the B.C. government, led by the Anti-Money Laundering Secretariat, has worked to implement the recommendations from your 2018 “Dirty Money” report.

I am pleased to note that, to date, we have addressed 38, or 79%, of the 48 recommendations you made. We expect more recommendations will be addressed through legislation in the next year. While work on implementing your recommendations is now nearly complete, the B.C. government remains committed to building on this work to make our province the most difficult and undesirable place to launder money in Canada.

Over the past three-and-a-half years, we have appreciated your professionalism, expertise, and helpful input. Thank you for your time and effort and we wish you great success in the future.

Sincerely,

A handwritten signature in blue ink, appearing to read "Douglas S. Scott".
