

## FEDERAL POLICING MAJOR PROJECTS PRIORITIZATION PROCESS

<sup>1</sup> **Major Project:** investigations, operations, or probes which score in one or more, of the Scope of Service Elements in the Prioritization Tool; or incur cost beyond the unit commander's delegated authority (See Delegation of Financial Authorities Matrix 9-2-4 D); and/or require authorization from National Headquarters (NHQ) for the use of specialized investigative techniques. Overall discretion remains with the Division Federal CROPS concerning when to submit a project for prioritization.

<sup>2</sup> **Major Change:** For any major change to the investigation (ie- Involvement of UCO, introduction of agent, Part VI), a new request for prioritization including an approved 2350 and matrix should be sent to FP Assessment Unit for new review. When there is a requirement to increase tier level, a completed Matrix and C237(s), depicting the reason for increased oversight will be tasked by the investigating unit to the Assessment Unit.
