FYI – the meeting with the Minister went well today. We are moving forward as planned with the OSA, Kamloops RFP and request for clarification/approvals on the B2B subsidiary. See below and attached for further context and details.

I will be “on holidays” starting tomorrow, but will likely be working from home on some takeaways for the new Minister and will reach out to you for support as required.

Regards,
Amanda

Subject: Meeting with Minister
Importance: High

As you know, we had our briefing with the Minister this morning. Attending were: myself, Amanda, Rob and Susan. From the AG’s Ministry were: Minister Eby, Deputy Minister Richard Fyfe and the Ministerial Assistant (Chief of Staff) Steven Howard. John Mazure also attended.

The meeting went from 7:30 am – 10:00 am. The Minister was well prepared, having read the 14 Briefing Notes we had sent him directly last week. We felt the meeting went very well, with no really contentious issues. I would like to thank Amanda, Rob and Susan for their support in preparing and delivering the briefing. Attached is a copy of the presentation we share with the Minister et al. You will see we covered a lot of ground. There are some follow up items:

- OSA: copy of the draft contract, expanded rationale, HLT Report, [Redacted - Solicitor/Client Privilege]
- Online grey market/Sportsbetting: he’s supportive of our approach and agreed to include us in the planning
- Parq: Looking forward to a tour in Sep\
- New Lottery Terminal: Wants a demo sometime
- [Redacted - Settlement Privilege] Communications plan

We were very encouraged by his level of understanding and his keen interest. We got support on just about everything and he even said he would re-visit the Beat The Receipt decision.

If you have any specific questions, I’m happy to discuss.

Cheers,
Jim
